RUST REMOVER

REMOVES RUST BACK TO BARE METAL

LIQUID FORMULA

1. Apply directly to rust or immerse small parts
2. Wait 15 minutes, reapply & wipe dry
3. Ready to prime in 30 minutes

1 kg

Jenolite wipes out rust, for good – anywhere rust attacks

- Ideal for immersing small parts, box sections, tubular sections or fine detail.
- Easy to use, simply apply and wipe dry – no need to rinse off.
- Gives immediate visible results. You'll see the rust actually disappear – unlike some 'paint over' products.
- Ready to prime or paint after 30 minutes.

HOW TO USE

1. **CLEAN.** Remove all traces of oil and grease with suitable degreaser. Remove old paint and loose rust with steel wool or wire brush.
2. **APPLY.** Pour the required amount into a plastic container. Brush liberally, directly onto rusty areas only. Keep Jenolite active by working in with the brush every 5 minutes and adding more if required. Do not allow the surface to dry out or become tacky. Vertical surfaces may require most attention. Continue application until a dark grey surface has formed.
3. **WAIT** for 15 mins. Apply a further thin coating of Jenolite and wipe dry immediately with a clean lint-free cloth. **DO NOT WASH OFF WITH WATER.** Repeat application if necessary.
4. Small components can be immersed in a plastic container. Leave until the rust has been removed, drain excess liquid for one minute. Wipe dry immediately with a clean lint-free cloth.
5. **PRIME or PAINT.** After 30 minutes, apply Jenolite Primer or topcoat. For best results, prime same day. Always check product compatibility. If in doubt test a small area first. *Do not return excess Jenolite Rust Remover to the container. Wash brushes and equipment in clean water immediately after use. Splashes onto surrounding paintwork and skin may cause staining – wash off immediately with water.*

Approximate coverage: 8 square metres per litre.

CONTAINS: ORTHOPHOSPHORIC ACID

WARNING. HARMFUL IF SWALLOWED. CAUSES SKIN IRRITATION. CAUSES SERIOUS EYE IRRITATION.

Keep out of reach of children. Wash exposed skin thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection. IF SWALLOWED: Immediately call a POISON CENTER or doctor. IF SWALLOWED: rinse mouth. Do NOT induce vomiting. IF ON SKIN (or hair): Remove immediately all contaminated clothing. Rinse skin with water/shower. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Specific treatment (see information on this label). Store locked up. Dispose of contents/container to comply with Local, National and International requirements.

PART NO. 83383
